Workshop: The First Steps into HLS

Hello,

We would like to welcome you to The First Steps into HLS workshop.

In this workshop we will focus on the basic principles behind hardware design for Xilinx FPGAs using Vitis HLS. No specific prior knowledge in the subject is required, however, some hardware design fundamentals would be advised.

If you want to follow along we recommend to bring a laptop with Vitis HLS 2020.2 preinstalled, which can be downloaded on the following link:
https://www.xilinx.com/support/download/index.html/content/xilinx/en/downloadNav/vivado-design-tools/archive.html

See you there!
